

TORRANCE MEMORIAL MEDICAL CENTER
HEALTH CARE FOUNDATION

March 1, 2007

It is a privilege to write a letter of recommendation for Danielle Whitney as a tutor and entrepreneur. I have known Danielle through my daughter's travel softball team as well as she has been tutoring my children since 2005.

It takes a special individual to be a tutor and educator. Not only do you have to be an expert in the subject area, you have to have the ability to teach. Danielle has both of these gifts. Danielle had an impressive academic career (as you can learn from her resume.) She graduated as valedictorian from her high school and continued her educational successes at UCLA where she was in and Alpha Lambda Delta Academic Honor Society and received multiple scholarships for four years.

Danielle is the Founder and President for Absolutely You Math Tutoring. She has tutored over 100 children since 2000. She offers a range of tutorial classes from a summer eight week program to one-on-one tutoring during the academic school year. She has refined her teaching techniques in determining every child comprehends math differently. She prepares their tutorial plans based on her student's individual needs.

Danielle has also donated a portion of her earnings back to her High School alma mater. She offers tutoring for children in the Los Angeles Unified School district, who cannot afford her services. I think both of these philanthropic endeavors speak loudly of Danielle's character.

Teaching children to show respect by arriving to their lessons prepared with their math materials as well as being on time is another component of her educational process. Danielle is involved with multiple organizations. Not only does she tutor children, she obtained her real estate license and serves as a head coach for a girls travel softball team. As head coach she demonstrates a strong work ethic and high standards that you want your children to learn in life.

In conclusion, I would be honored to recommend Danielle Whitney to serve as a tutor and proprietor of her tutoring business for any child who needs assistance with their math skills. She is professional, reliable and gets results. Feel free to call me should you have further questions to discuss Danielle's qualifications. My cell phone number is (310)710-4510.

Respectfully submitted,

Laura Schenasi
